

## TSYS Guardian<sup>SM</sup> Security Suite

Safeguard your business – Protect your customers, your revenue and your reputation

You've worked hard to build your business. Protect it with TSYS Guardian Security Suite. Competitively priced and created with businesses like yours in mind, TSYS Guardian Security Suite is designed to safeguard data and protect your hard-earned revenue and reputation.

According to the PCI DSS council, more than 80 percent of data breaches happen at small businesses. And the costs are staggering. Breached businesses must pay for a forensic audit, the cost of card replacement, plus any fines — which can total \$20,000 to \$50,000 for small Level 4 businesses.

TSYS Guardian Security Suite offers protection against hacks and their subsequent costs, via a portfolio of crime fighting solutions. They include:

### PCI Validation

Validating and maintaining compliance with the Payment Card Industry Data Security Standard (PCI DSS) helps your business implement and verify basic security standards required for card acceptance. These standards establish proven security practices for your business and provide a layer of defense against data theft.

### Card Compromise Assistance Plan – C-CAP

In the event of a breach, C-CAP offers your business the financial help it needs, up to \$100,000 per merchant identification number, to cover post-breach expenses.

### Encryption

End-to-end encryption adds a layer of security to your card acceptance by encrypting card numbers at the point of sale, rendering them useless to hackers or cyber thieves.

### Chip-capable Credit Card Machine

Our chip-enabled credit card machines include the highest levels of security available in a POS device, giving you the ability to accept customer payments using this emerging, highly secure technology.

Working together, solutions within TSYS Guardian Security Suite help combat criminals and the damage they cause. The suite also offers you peace of mind, knowing it is on guard, protecting your customers, your revenue and your reputation.

Call us today at 888-354-3988 to safeguard your business with TSYS Guardian Security Suite.
